

EVIDENCE BUNDLE 4

Acceptable Use Policy Communication and Training Plan

1. PURPOSE

The purpose of this Communication and Training Plan is to ensure that all NexusTech employees and relevant stakeholders understand, acknowledge and comply with the newly approved Acceptable Use Policy (AUP).

The plan focuses on awareness, role based training, user adoption and continuous reinforcement rather than simply distributing the policy document. It ensures employees understand their responsibilities when using company devices, networks, applications and information resources.

2. COMMUNICATION AND TRAINING PLAN

Audience	Key Message	Communication Channel	Owner	Timing	Acknowledgement Mechanism	Success measures
Employee	Company resources must be used responsibly. Users must protect company data, avoid prohibited activities, report security concerns and follow acceptable use requirements.	Email announcement, all hands meeting, intranet announcement, mandatory security awareness module.	Information Security Manager / HR	Week 1: Policy announcement and awareness session. Week 2: Mandatory training completion.	Employees must digitally acknowledge that they have read, understood and agreed to comply with the AUP through the learning management system (LMS).	95% employee acknowledgement rate within 30 days, 90% or higher knowledge assessment score.
IT and help desk	IT personnel must understand how the AUP connects with access management, system administration responsibilities and enforcement activities.	Technical briefing session, IT team meeting, internal documentation portal, role based training.	Information Security Manager	Week 1–2 after approval.	IT staff must complete role based training and confirm understanding of operational responsibilities.	100% IT staff completion rate, reduction in access related policy violations and incorrect user support actions.
Third-Party Service	External users must follow	Contractual security	Vendor Management /	Before access approval.	Signed acknowledgement	100% third parties with

Providers	NexusTech security requirements when accessing company systems or information.	requirements, third-party communication, security awareness briefing.	Information Security Team		ent or contractual acceptance of acceptable use requirements.	access have documented acceptance.

3. ROLLOUT TIMELINE

PHASE	TIMELINE	ACTIVITY
Phase 1: Preparation and Announcement	Week 1	- Publish approved AUP on company intranet. - Send CEO announcement explaining the importance of the policy. - Schedule awareness sessions. - Prepare training materials and knowledge assessment.
Phase 2: Awareness and Training	Week 2	- Conduct company wide awareness sessions. - Deliver mandatory online training modules. - Provide role based sessions for IT staff and managers. - Allow employees to ask questions and clarify requirements
Phase 3: Verification and follow up	Week 3	- Review completion reports. - Conduct knowledge checks. - Identify common misunderstandings. - Provide additional guidance where required.
Phase 5: Continuous reinforcement	ongoing	- Include AUP reminders in security awareness campaigns. - Review policy understanding during onboarding. - Update training when policy changes occur.

4. ACKNOWLEDGEMENT AND ATTESTATION PROCESS

NexusTech will implement a formal acknowledgement process through the company learning management system or HR portal.

Employees must:

1. Complete the mandatory AUP awareness training.
2. Pass a short knowledge assessment.
3. Electronically confirm that they:

- Have read and understood the policy.
- Agree to comply with acceptable use requirements.
- Understand that violations may result in disciplinary action.

The acknowledgement record must capture:

- Employee name.
- Department.
- Date completed.
- Training completion status.
- Policy version acknowledged.

Records will be maintained for audit and compliance purposes.

5. ROLLOUT EFFECTIVE MEASURES

MEASURES	DESCRIPTION	TARGET
Policy acknowledgement rate	Percentage of employees who have digitally confirmed acceptance of the AUP.	Minimum 95% completion within 30 days.
Training completion rate	Percentage of employees who complete mandatory AUP awareness training.	Minimum 95% completion within 30 days.
Knowledge assessment score	Measures whether employees understand key policy requirements.	Average score of 70% or above.
Security incident trends	Tracks whether policy related incidents reduce after rollout.	Reduction in incidents caused by unacceptable use behaviour.
Help desk query analysis	Reviews repeated questions or misunderstandings after training.	Decrease in repeated policy clarification requests over time.

6. NON-COMPLIANCE AND ESCALATION PROCESS

If employees fail to complete training, acknowledge the policy or repeatedly misunderstand requirements, NexusTech will apply a structured escalation approach:

Stage	Action
Stage 1	Employees receive reminders and additional guidance from HR or Information Security.
Stage 2	The employee's manager is notified and required to support completion or corrective action.
Stage 3	Employees may be assigned targeted security awareness training.
Stage 4	Continued refusal or repeated violations may result in disciplinary action according to HR procedures.
Stage 5	Where security risk exists, NexusTech may restrict system access until compliance requirements are met.

7. GOVERNANCE AND OWNERSHIP

ROLE	RESPONSIBILITY
CEO	Provides leadership sponsorship and reinforces the importance of compliance.
Information security manager	Owns policy communication, training content and effectiveness monitoring
HR department	Tracks employee completion and supports escalation processes.
IT department	Supports technical awareness and ensures operational alignment. .
